

## BlueParrott M300-XT

# ULTRA-LIGHT NOISE CANCELLING BLUETOOTH® HEADSET

### Block the noise.

When you need to make calls wherever your work takes you, you don't want to worry about background noise. The new M300-XT has two built-in microphones, delivering up to 80% noise cancellation. So wherever you're calling from, they'll hear you clearly.

### Stay connected all day.

When you need to stay connected to your colleagues all day, you need to know your headset's battery won't let you down. The M300-XT delivers up to 14 hours of talk time on a single charge, so you can keep communicating, even on the longest shifts.

### Featherweight class. Heavyweight performance.

We've gone all out to make the M300-XT our smallest and lightest ever BlueParrott headset. Weighing in at just 0.7 oz/20 g, this tiny little headset features a heavyweight feature set that'll keep your day running so smoothly from start to finish, you'll forget its even there. With the flexibility to wear it on either ear, it's a winner for everyone.

### Don't break your stride.

Delivering a package and don't want to take your phone with you? With a wireless range of 300 feet/100 meters, you don't have to. Leave your phone in your vehicle and be sure your connection will hold, so you can get on with the job without being glued to your mobile device.

### A headset that's tough enough.

Your headset can take a bit of a beating when you're constantly on the road. So why settle for a product that isn't tough enough to hack it? The M300-XT features IP54-rated protection against dust and water, so it's rugged enough to go wherever you go.

### Keep your eyes on the job.

Working on the go requires your full attention. That's why our customizable BlueParrott Button™ allows you to program it with your most-used function, for instant access anywhere. Instantly mute calls, speed dial your contacts, or Push-to-Talk with colleagues, all at the touch of a button, without having to root for your phone.
